Alia, Ranbir make hay while the brand shines

Curiosity about the relationship between the two actors has translated into advertiser interest. But will it last?

VIVEAT SUSAN PINTO
Mumbai, 18 November

COUPLES AND BRANDS

- **Alia Bhatt & Ranbir Kapoor:** PepsiCo Lay's, Flipkart
- **Anushka Sharma & Virat Kohli:** Manyavar, Myntra
- **Deepika Padukone & Ranveer Singh:** Lloyd AC
- **Twinkle Khanna & Akshaye Kumar:** P C Jewellers, Fortune Basmati
- **Gauri & Shahrukh Khan:** D'décor
- **Kareena & Saif Ali Khan:** Airbnb, VIP (luggage)

They look coyly at each other in a commercial for a pack of chips, currently on air. Actors Alia Bhatt and Ranbir Kapoor are the most stylish couple, according to a survey by Mumbai-based Indian Institute of Human Brands, promoted by ad man Sandeep Goyal and the latest entrants into the league of couple-brands. But the question is: Will their magic last?

The actors, the only unmarried 'power couple' presently around, have a few brands banking on their star appeal. This includes Lay's from PepsiCo India and Flipkart Fashion, the latter they endorse individually as well.

Flipkart has launched at least two campaigns with the actors since May, and proposes to roll out more commercials and digital videos in the future. The stars have also done on-ground events and interviews together for Flipkart Fashion, launching their clothing collection and accessories.

Celebrity managers said that Bhatt and Kapoor will be tracked closely by prospective advertisers seeking a new pair for their brands. "There is a curiosity factor with Alia-Ranbir, in part due to their relationship status and a certain feel-good factor that they bring to the table. Brands will be watching them closely as their relationship evolves," said a celebrity manager, who has worked with Kapoor.

It is nothing new for marketers to tap into "power couples". For example, apparel brand Manyavar was among the early names in the business to leverage the personal relationship between Virat Kohli (who had been their ambassador for over a year) and Anushka Sharma for commercial gains. By releasing an ad with the two as a couple, just before they announced their impending marriage in December 2017, the brand cashed in on the huge public interest on the issue.

In recent years, actor couples that have also tied the knot off the screen—Deepika-Ranveer, Twinkle-Akshaye, Saif-Kareena, Genelia-Ritiesh and Ash-Abishek have all done ads together as married couples. So have Sharma and Kohli, who featured in a new Manyavar commercial as a married couple recently.

Bhatt and Kapoor are yet to take the plunge even though they have declared their love for each other, thereby shovelling in huge amounts of attention from fans and followers, on their social media timelines. Brands track their profiles assiduously to see if they can ride on the popularity of the actors, cash in on the moments in their relationship.

Kapoor is managed by Kwan Entertainment, while Bhatt is handled by Matrix India. Both companies were not immediately available for their comment. Lay's, incidentally, was the first joint endorsement deal signed by Kapoor and Bhatt and the buzz is that more advertisers are queuing up as the stars prepare for release of their films shortly.

Bhatt and Kapoor will be seen in director Ayan Mukherji's movie *Brahmastra*, which releases next month. The film's publicity team has been releasing behind-the-scene videos and sneak peeks of the film's shoot for some time now. It is no coincidence that social media chatter has been growing around their "wedding" as *Brahmastra*'s release draws near, said several.

Goyal says that Bhatt and Kapoor have a youthful appeal and seem to enjoy each other's company despite their hectic schedules. Both actors also seem to be feeding into social media's growing need for content, uploading videos, photos and Instagram stories of their time together. He says that Bhatt and Kapoor are among the savviest users of social media and have routinely trended on Twitter as a couple. Their high profile and appeal is what led him, he says, to include them in his study despite their unmarried status.

When announcing Bhatt and Kapoor as brand ambassadors of Lay's, Dilen Gandhi, senior director, marketing, foods category, PepsiCo India, said, "Both Alia and Ranbir are youth icons and are talented actors of their generation. Combining Lay's with Alia and Ranbir's talents, will enable us to tell the kind of stories that resonate with consumers across the country."

Both actors demand close to ₹3 crore per brand a day as endorsement fees and hiring them as a couple would mean that advertisers would have to fork out at least ₹6 crore for a day's shoot for a brand. For the time being, advertisers seem prepared to pick up the tab.

Budget to focus...

"Unlocking private investment will be the key to beating slowdown. Steps have already been taken over the past few months, and there will be more in the budget," he pointed out. "The last five years were about making welfare and social sector schemes more targeted and efficient. The next five will be about growth and the private sector," he added. In fact, the proposed tax measures for the Budget are something that people in the top levels of the government are taking a keen interest in.

To arrest slowdown, Finance Minister Nirmala Sitharaman in September announced steep cuts in corporation tax rates, effective from April 1 this fiscal, despite some opposition within the bureaucracy. The rate was cut to 22 per cent from 30 per cent for the existing companies that do not get any exemptions, and to 15 per cent from 25 per cent for new manufacturing companies.

Apart from corporation tax cuts, Sitharaman has in the recent past made several sector-specific announcements aimed at MSME, housing, non-banking financial companies and other sectors to alleviate the deep consumption slowdown.

The FM has over the last few months been interacting with tax officials, representatives of industry and MSMEs and other stakeholders across cities. She's learnt to have taken extensive feedback from stakeholders during those interactions, much before the traditional pre-budget meetings.

Real GDP growth for the April-June quarter was 5 per cent, the lowest since 2013. The nominal GDP growth came in at 8 per cent, the lowest since the third quarter of 2002-03. July-September quarter numbers could hover around 4 per cent, estimates suggest. For 2019-20, the growth could be between 5 and 6 per cent.

Airtel, Voda...

"To ensure its customers continue to enjoy world-class digital experiences, Vodafone Idea will suitably increase the prices of its tariffs effective December 1, 2019," said the company's statement on Monday. It added that Vodafone Idea will continue to actively invest in making its network future-fit by embedding new-age technologies and launching new products/services to cater to the evolving needs of its over 300 million customers.

"The telecom sector is highly capital intensive with fast-changing technology cycles that require continuing investments. It is, therefore, extremely important that the industry remains viable to support the vision of Digital India," said Bharti Airtel in a statement soon after. Mobile data charges in India are by far the cheapest in the world, even as the demand has grown. From October 10 onwards, Reliance Jio started charging customers 6 paise a minute for making calls to any non-Jio mobile number. Till then, it was for free.

This initiative came at a time when Jio already commands a bulk of the market share. The additional charge was introduced soon after Trai moved to reopen the deadline for ending charges for terminating calls on rival networks beyond January 2020.

Steel firms...

Posco, which supplies automotive steel to the domestic market, said some contracts had been done and some were pending. In the analysts call after the second quarter results, JSW had indicated that there would be some correction because the first-half prices had been stable for the automotive customers. It is in the process of negotiating contracts.

The suppliers who meet the 10 million tonne automotive steel demand are Tata Steel, Tata Steel BSL, JSW Steel, Essar Steel, Posco, and some long product producers. For the past few years, the industry has been consistently focusing on the value-added mix, with a focus on the automotive segment.

The prices of the benchmark cold-rolled close-annealed (CRCA) products have been revised to ₹48,000 a tonne from ₹54,000 a tonne. CRCA products are used in a car's exterior.

Prices of auto-grade hot rolled products — used in body panels — were revised to ₹38,000 a tonne from ₹44,000 a tonne. Steel accounts for 50 per cent of a car's weight. For two-wheelers, it is lower.

Auto sales have been in the slow lane for the past 11 months which has hurt the steel industry as well. Most companies have been resorting to exports to offset the slide in demand. In October, however, festive demand bumped up sales marginally. Passenger vehicle sales in October rose 0.28 per cent to 285,027 units, stemming the slide. Overall vehicle sales, though, recorded a decline. A steel producer said lower prices would hopefully support the auto sector. Bang, however said, "The situation in the Indian economy needs to get better for auto sales to pick up."

NHAI to pay...

Under the value-capture financing mechanism, states can agree to pay 25 per cent of the acquisition cost and they will get a priority in project execution.

"One such case is of the government of Kerala, which has agreed to pay 25 per cent of the land cost for national highways in the state," an NHAI official told *Business Standard*. The reason for this is the high cost of land, most of which is in urban areas, and the state needs better road connectivity because of floods in the last two consecutive years.

In addition to this, the upcoming projects under the Bharatmala scheme will be executed through this mechanism.

The Ministry of Road Transport and Highways has been grappling with higher land acquisition cost for the past few years. Approximately, a cost of ₹12 crore per km is incurred in the expansion of a highway from two-lane to four-lane and the number would be five-six times higher in a greenfield project like an expressway. The cost of the marquee Eastern Peripheral Expressway is ₹11,000 crore, of which ₹5,673.05 crore was the land cost.

"These are steps to address the larger issue of increasing land cost," another official said. While the allocation for the NHAI has risen in the past couple of years, the authority's IEBR (Internal and Extra Budgetary Resources) has also gone up.

IEBR is the money the department raises in the form of profit, debt, and equity. In FY18, the NHAI's IEBR was ₹50,532.41 crore. It went up to ₹62,000 crore in FY19 and further to ₹75,000 crore in FY20.

Money market...

A year ago, the credit market nearly froze as IL&FS started defaulting from September, and governance concerns emerged in systematically important non-banking finance companies (NBFC).

The bond market still gave money to good companies, but at a high rate. For average companies though, both the bond and credit market became inaccessible as lenders became risk averse.
